Our Cloak Business This Season

has been a grand success. The reason we can account for this is because we had a large stock, a variety of styles, at reasonable prices, and perfectly fitting garments.

We wish to say a word to let buyers know that we still have a good stock to select from and that we are constantly receiving new ones.

Don't wait too long. The stock won't be larger nor the prices lower than what we are selling them now.

CITY AND VICINITY.

The barbers of the city have made an agreement to close all shops on Thanksgiving Day.

Saggers Bros. have harvested 650 bushels of carrots to the acre on their farm two miles south of this city.

Rev. Nicholas Boer of Jamestown Center has been extended a call by the Bethany Reformed church of Grand Rapids.

E. Takken has made extensive improvements in his shop at Ninth street and Central avenue, placing therein a machinists drill press and lathe and installing an electric motor.

Benjimen A. Sterken, who has for some years been connected with A. H. Meyer's music store in this city, has moved with his family to Grand Rapids. He goes there to take charge of the music store established by A. H. Meyer of this city at 915 South Division street. Mr. Sterken is an able business man and will undoubtedly meet with success in his work at Grand Rapids.

Capt. Williams and Purser McCabe of the Soo City bade good-bye to their Holland friends Tuesday and left on that steamer for St. Joseph where the boat will finish the season on the St. Joseph & Chicago route. The steamer C. W. Moore will finish the season between here and Chicago and if the channel and the weather permits will run till Christmas. The City of Chicago has been laid up at Repton Harbor.

Housekeepers beware. Recent investigation by the state dairy and food department shows that many extract manufacturers are selling lemon extracts of a very low quality. Some have placed on the market an extract which contains no lemon oil or other property of the lemon and which is made of very dilute alcohol with a little lemon flavor and colored to imitate the true extract. Some of the coloring which the samples show is termed coal tar dye.

The Grand Haven Haven Press goes after the merchants of that city in the following style: "An exchange says the Press is after the merchants because it is not getting its share of their patronage. If there was a share the Press would not kick, but if it did not get it it would think it was to blame, but no one gets a share. Merchants in Zeeland and Coopersville each advertise more than Grand Haven, and the two towns put together would not make a town half the size. But the merchants of either do more business than Grand Haven."

"I am not so poor that I want a job as the head of any company other than our own, and if we sell out, which is within the bounds of possibility, although not at all probable, there would be all the more reason for me to quit the business at which I have spent a life time." These were the words of President J. H. Graham, of the Graham & Morton Transportation company, when asked if he would head the proposed combination of Lake Michigan passenger lines now being worked out by Chicago and eastern capitalists. Mr. Graham admits having been tendered the position some time ago, which he declines was summarily declined as was the proposition to consider an offer to sell out to the proposed trust. He concedes the property has a price, but does not think the promoters will pay it.

A combination of business interests was effected this week between Will Botsford and Joseph S. Pino whereby the bakery and the confectionery business conducted by Mr. Botsford and the Hotel Bristol, managed by Mr. Pino, will be merged and conducted under the firm name of Botsford & Pino. Extensive improvements will be made in the restaurant department of Mr. Botsford's store and the best of service will be given under the immediate supervision of Mr. Pino who has had a great deal of experience in that line of work both at Montague, where he ran a restaurant and bakery for several years, and in this city where he was employed by L. E. Van Drezer. A lunch counter has been put in and special attention will be given to short order cooking. Mr. Botsford is one of the best known business men in Holland and he and Mr. Pino will make an able firm.

John Redden has been appointed postmaster at Olive Center, vice Henry Yonker, resigned.

The contract has been let for the construction of the inspection tug to be used by Capt. Keller, the government engineer, and his force in the work of improvement along the Shores of Lake Michigan. The tug will be about 70 feet long and 17-foot beam. It will cost about \$12,000.

The board of directors of the Grand Rapids, Holland & Lake Michigan Interurban road held a business meeting at the office of President B. S. Hanchett at Grand Rapids Monday. The meeting had to do with the affairs of the company, which are in a very satisfactory condition and no important action was taken.

Smith & Nelson, the Muskegon contractors, Monday commenced work on the new approaches to the bridge connecting Grand Haven with Spring Lake. The work is being done for the Grand, Rapids, Muskegon & Grand Haven Electric railway. A fine new steel swing bridge is to be built across the river at this point by the railway company.

Justice Isaac Fairbanks of Holland recently celebrated his eighty fourth birthday and is in much better health than 10 years ago, being remarkably vigorous and spry for a man as old as he. On his birthday the squirrel offered to wrestle with any man of his age in the city, but there were not found any who desired to tackle the court. He weighs out justice entirely by Fairbanks' scale.—Detroit Tribune.

The Third Reformed church at a congregational meeting held last Monday night re-elected B. Riksen as elder and elected Martin Van Dyke to fill the vacancy caused by the death of Isaac Cappon. The deacons whose term holds over another year are H. Van Ark, John Kerkhof and John Pessink.

It is probable that the Michigan railroads entering Detroit will follow the Pennsylvania and Grand Trunk systems in raising the wages of their employees. It is not likely, however, that there will be any change until after January 1. "Yes, a request has been made for an increase," said Charles M. Heald, president of the Pere Marquette railroad when asked about the matter, "and while it is now under consideration, no definite action has been taken, nor will there be until after the first of the year. It is probable, however, that the increase will be granted, but I am not at liberty to say what it amounts to."

People residing in this city are not generally aware that on more than one occasion besides fourth of July the opportunity is presented to witness a grand display of fireworks. The Buss Machine works is the place to see the pyrotechnical display and when castings are made is the time. The largest castings in Western Michigan are made in this shop and from the time the brawny workmen cause the molten metal to pour into the huge kettles until the time it is sent to all parts of the casting the sight is indeed interesting. It is an iron job and it takes men of iron constitution to do it. Tuesday night a five-ton casting was made and quite a number took advantage of it and say that it is a sight well worth witnessing, both from a spectacular and an instructive point of view. The casting is one of four that are being made for a Muskegon firm and when completed will be sent to Pittsburg.

A piano belonging to A. H. Meyer, which was being unloaded from a dray to the sidewalk in front of his store on Brady St., last Saturday, overturned and fell to the ground, receiving about \$50 damage to the case.—Allegan Gazette.

M. W. Palmer of Hamilton has invented and patented a sugar beet pulper which is pronounced the most successful tool of the kind ever offered to farmers. He is ready to begin manufacturing them, and desires a location.

J. H. Van Zee of this city went to Grand Rapids Tuesday to attend the funeral of his father, E. Van Zee, who died Saturday. The funeral services were held at the Grand Rapids Third Reformed church. E. Van Zee came to Michigan with the early pioneers and was well known and highly esteemed by the old settlers of this section.

The annual financial statement of the Third Reformed church shows that the society is free of debt and in fine condition financially. During the past year \$396.44 was raised for benevolent purposes, \$954.72 from general collections, \$441.98 from pew rentals, and \$1,300 for pastor's salary. These collections do not include money contributed by the various societies.

Adrian Wanrooy of this city who pleaded guilty in circuit court to the charge of burglary was sentenced by Judge Padgham to one year in Ionia. Deputy Sheriff Hans Dykhuis took him to prison Saturday. The young man took the punishment greatly to heart and told the officer that he would never again get mixed up in such a scrape. Leendert DeWitt who pleaded guilty to the same offense was given a talk by the judge and released on suspended sentence. De Witt was represented by Attorney Geo. E. Kul-len.

A peculiar accident happened last Sunday night at 8:10 o'clock in the Pere Marquette railroad yard at Grand Haven. There is a long grade of nearly two miles leading into Grand Haven and somewhere on this grade the northbound freight train parted in the middle. The forward section, with the engine pulling it, kept on its way and the rear section followed somewhat slower down the grade, but gained momentum as it coasted down the hill. At Grand Haven the engine uncoupled to take on water and left the front section standing on the rails, the crew supposing the whole train was still intact. Meanwhile the rear section reached the bottom of the hill going at fair speed. The rear section struck the front section and there was a terrible mix-up. Four cars left the rails and two were crumpled up like pasteboard. Three other cars were more or less damaged. One car passed through the back gate of the property of a man living beside the right of way and missed the back door by about four feet. Another car plowed through a withered flower bed. No one was injured.

SHOT AT THE KING.

Attempted Assassination of Leopold of Belgium by an Italian Anarchist in Brussels.

Brussels, Nov. 17.—Three shots were fired at the king of the Belgians Saturday morning as he was proceeding to the cathedral to attend a Te Deum in memory of the late Queen Marie Henrietta. No one was hurt. The man who fired the shots is an Italian. He stood in front of the Bank of Brussels, on the Rue Royale. The other chambers in his revolver proved to be blank, so it is presumed that those fired were equally harmless. The man was immediately arrested and the police had some difficulty in rescuing him from the hands of the crowd. He gave his name as Rubino, and his occupation as a book-keeper. He was born at Binardo, near Naples, in 1859, and has lately lived in Brussels.

The prisoner says that he was recently employed in the Italian secret service in London, and came to Brussels two weeks ago with the intention of killing King Leopold.

Rockefeller for assistance has brought forth the response that if by May 1, 1903, \$80,000 has been paid on the entire cost he will make the final payment of \$10,000. The offer was made to Col. Holz, the local commander.

Holland City News.

FRIDAY, Nov. 21.

Lake and Marine.

Ludington is disappointed in its new Pere Marquette ferry, the No. 18. It is found that the new boat makes but 12 miles an hour whereas it was advertised to do 18.

"Indian Bill," the name by which a well known South Haven seagull man and his decrepit schooner are known, started out of port Friday just ahead of a squall, says a correspondent. The wind came down with a rush and took the boat's rigging, sending Bill to his knees. He had just "got religion" and joined a church, so prayer was tried instead of former well tested methods of averting the wrath of the elements. When the jib was ripped off Indian Bill got uneasy and found the lurching deck hard beneath his knees. Presently the main-sail flew away and the rudder post was smashed. Bill jumped to his feet with a bound to curse the black cook, who is the whole crew. "The Lord's too slow to save the boat," he yelled and added in some hearty curses. The life saving crew rowed out to him and helped bring the damaged boat ashore. It's now up to the elders of the church to judge of Bill's conduct, which was reported by the "crew."—Detroit Journal.

NEIGHBORING TOWNS.

Filmore.

Our farmers are again drawing beet to Holland through the very muddy roads.

Mr. and Mrs. Martin Dainling of North Byron visited with Mr. and Mrs. Henry Roeve, Jr., over Sunday.

Mrs. Wm. Oonk celebrated her 62nd birthday last week Thursday. All her children and grand children enjoyed themselves at the old home stead.

Miss Hattie Grootenhuis has again taken the position as domestic at the home of Mr. and Mrs. Arle Prins as the later is yet too weak to do her own work.

We all enjoy the services of the R. F. D. It is indeed a very nice thing for our farmers that we may read the news of the world when it is new not when it is a week old.

The Graafschap creamery paid 22 cents for the butter received during October.

West Olive.

Squirrels are numerous around here and seem to be garnering provisions in anticipation of a hard winter.

Mrs. A. Boyer, Sr., arrived home from Detroit Thursday after a short visit. Abe Boyer, Jr., has secured a position as motorman in that city with a salary of \$70 per month and we wish him success.

Howard Estelle, our soldier boy from the Philippines, made Holland a call Friday.

G. W. Marble, Sr., was in Grand Haven Saturday on business.

Wedding bells have been ringing for the past two weeks but we are still unable to announce the result. They are not Christmas bells because Santa Claus is not able to use his cutter.

John Leland is busy hauling coal to Holland from his farm northeast of here.

Hunting is very profitable in the woods and along the river at present. Cal McKinley killed two geese with one shot and Peck Bros. dug seven skunks out of one hole. Could Mr. Roosevelt do as well?

Sam Mountford of Holland attended Sabbath school of the Church of God Saturday.

Mr. Brown of Grand Ledge is station agent here during the absence of F. A. Vollmer, who is recovering from a poisoned face.

Asa Rork of Agnew, a brother to Rev. W. W. Rork died Thursday from heart disease after an illness of four days. Deceased was a farmer, veteran of the Civil war and also superintendent of the Agnew Sunday school. He was buried in Grand Haven.

H. Goodman shipped his ninth carload of rye from here Wednesday. The total number of carloads is about 15 for this season.

Connel Bros. will hold an auction on their farm near Port Sheldon Friday, Nov. 23. We are sorry to say that the brothers will then remove to Grand Rapids.

The new church is looking better every day. The siding and cornice is on and the shingles will be put on this week if nothing happens. The members have done nobly in donating cash and the work.

Tom Sheban is the man who saw coons in his corn but they turned out to be darkies.

When will we get some snow before winter?

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all Throat and Lung diseases by Heber Walsh, druggist. Price 50 cents and \$1.00. Trial bottles free.

"I owe my whole life to Burdock Blood Bitters. Scrofulous sores covered my body. I seemed beyond cure. B. B. has made me a perfectly well woman." Mrs. Chas. Hutton, Berville, Mich.

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

CIVIL SERVICE STATISTICS
Gleaned from the Annual Report of
the Chief Examiner of the Com-
mission for Fiscal Year.
OVER 60,000 PERSONS WERE EXAMINED
Of This Number Over 40,000 Passed
and Over 13,000 Received Posi-
tions—New District to Be Or-
ganized in San Francisco—Residents
of New Possessions May Compete.
Washington, Nov. 18.—The annual
report of A. R. Serven, chief examiner
of the civil service commission, shows
that during the last fiscal year there
were 60,558 people examined in and
for the classified service, of whom
40,509 passed and 13,298 were appoint-
ed, promoted or transferred. In ad-
dition 1,174 persons were examined
for the Philippine service, of whom
480 passed and 694 failed. The local
boards of examiners specially desig-
nated for the custodial service were
discontinued. On June 30 last the
total number of local boards of ex-
aminers was 1,128, with a total mem-
bership of 3,723.
New District.
Final steps are now being taken to
consummate the complete organiza-
tion of a civil service district similar

to the Boston district, with headquar-
ters at San Francisco, in immediate
charge of a consolidated board of com-
missioners. The written examina-
tions required the preparation of 438
sets of examination questions on dif-
ferent subjects, which necessitated
the preparation of 1,851 separate
sheets of tests.
Thousands of Questions.
Over 250,000 sheets of examination
questions were handled. The great
complexity of the work done under
the direction of Chief Examiner Ser-
ven is shown by the large number of
examinations which include subjects
of a special, professional, scientific
or technical character. Of these there
were 208 examinations, in which 8,257
persons took part. Well-nigh every
field of professional or scientific in-
quiry and research is represented in
the variety of the examinations.
The Service Extended.
The commission has held competi-
tive examinations in every state and
territory except Alaska. Several at-
tempts at examination work in Alaska
have been attempted but abandoned.
Another effort, however, may be made
soon. Facilities have been furnished
to residents of Hawaii to compete in
the general and local civil service ex-
aminations in Honolulu and Hilo, and
residents of Porto Rico hereafter may
take the general and local examina-
tions at Ponce and San Juan. Much
attention has been given during the
year to the upbuilding of the service
in the Philippine islands.
Anti-Saloon Sunday.
Springfield, Ill., Nov. 18.—Recom-
mendations have been sent to every
pastor in Illinois and to the secre-
taries of preachers' meetings by the
Anti-Saloon league advising all
churches of action taken by Spring-
field ministers, asking that Sunday,
January 25, be set aside for the dis-
cussion of the liquor question in Illi-
nois.
A Domestic Tragedy.
Youngstown, O., Nov. 17.—James
Rose, aged 22, a negro, fatally shot
his 17-year-old wife. He then
walked to his father's house, told of
the deed and blew out his own
brains. He was jealous.
Assigned.
Marshalltown, Ia., Nov. 18.—Board-
man Brothers, of Nevada, one of the
largest commission houses in the
state, have assigned, with liabilities
estimated at \$150,000 and assets
about the same.
Bank Safe Robbed.
Sioux City, Ia., Nov. 19.—Robbers
cracked the safe in the Farmers' Loan
& Trust company's bank at Arthur,
Ia., and secured \$2,300 in cash. There
is no clew.
Tragedy in Madison.
Madison, Wis., Nov. 18.—John Dav-
enport, proprietor of the students'
boarding house, the Davenport club,
shot Charles Olmquist, a student
boarder, Monday afternoon, and then
turned his revolver and shot himself
in the head, dying almost instantly.
Ohio's Vote.
Columbus, O., Nov. 19.—The official
count of the vote cast at the recent
election in Ohio shows a total of
830,131 ballots were thrown. The to-
tal vote cast for secretary of state
was \$11,467, Laylin (rep.) having a
plurality of 90,465.
Takes a Recess.
Washington, Nov. 18.—The United
States supreme court on Monday
took a recess until Monday, Decem-
ber 1. The interim will be largely de-
voted to the consideration of cases al-
ready presented to the court.
Oldest Man in the World.
Harrodsburg, Ky., Nov. 13.—Uncle
Tige Bledsoe (colored), believed to
have been the oldest man in the
world, died in this city, aged 133
years.

their proposed tour of the United
States.

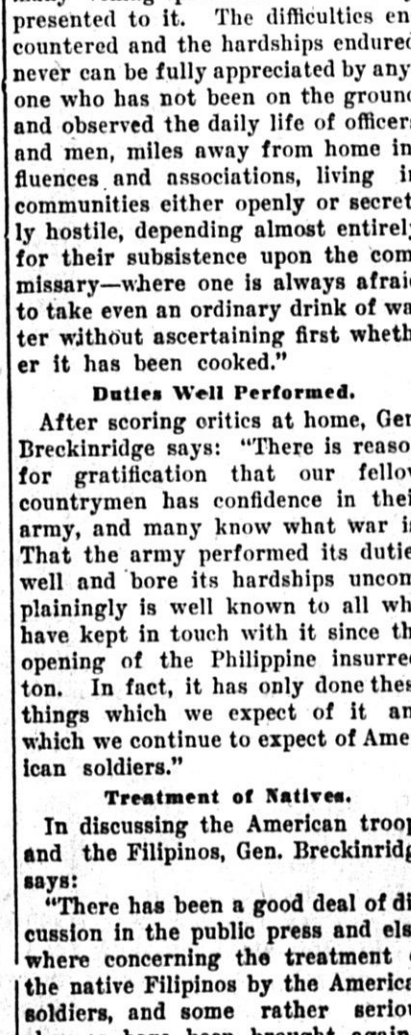

LABOR FEDERATION.
Proceedings at the Twenty-Second
Session of the Organization Held
in New Orleans.
New Orleans, Nov. 14.—The twenty-
second annual convention of the
American Federation of Labor met
Thursday morning at 10:30 in the
Odd Fellows' hall, with about 400
delegates present.
President Gompers uttered a warn-
ing to the members of the organization
that the immediate future of trade
and labor assemblies was seriously
endangered by the conflicting claims
of jurisdiction made by different bod-
ies. Unless such things were ap-
proached in calmness and handled
with moderation, he declared, the la-
bor organizations of the country
would soon be involved in a conflict
which would by comparison dwarf all
the struggles in which labor organiza-
tions had been engaged.
New Orleans, Nov. 15.—Another
day was devoted by the American
Federation of Labor to work pre-
paratory for the actual duties of the
convention. Reports of committees
and the introduction of resolutions
took up all of the sessions.
Reports from international local
unions show that there were 1,558
strikes, in which 412,871 persons were
involved. Out of that number 352,967
were benefitted and 14,016 were not.
The total cost of the strikes was
\$2,729,604.
The report submitted by National
Treasurer John B. Lennon showed

the total receipts of the order for the
entire year to have been \$152,312, and
the total expenses \$120,086.
New Orleans, Nov. 17.—The Ameri-
can Federation of Labor convention
declared war on tobacco trusts. Fully
2,000,000 members will boycott its
goods and stores that sell them. Legal
proceedings are also threatened.
New Orleans, Nov. 18.—Charges of
infidelity to the principles of unionism
were preferred in a sensational
manner against President Samuel
Gompers, of the American Federation
of Labor, at yesterday's session of
its convention. They are the out-
come of the great steel strike of last
year, and are sponsored by President
L. J. Shaffer, of the Amalgamated
Association of Iron, Steel and Tin
Workers, who fought and lost their
battle last year under Shaffer's gen-
eralship. The presentation of the
charges mark the beginning of a
struggle for supremacy between
Gompers and Shaffer.
Bear Hunt Ends.
Smedes, Miss., Nov. 19.—President
Roosevelt's bear hunt in Mississippi
is ended, and he has not had even a shot
at a bear. The last day of the chase
was simply a repetition of the three
preceding days so far as luck was
concerned. Try as the hunters would
they could not get a bear within range
of the president's rifle.
Tragedy in Madison.
Madison, Wis., Nov. 18.—John Dav-
enport, proprietor of the students'
boarding house, the Davenport club,
shot Charles Olmquist, a student
boarder, Monday afternoon, and then
turned his revolver and shot himself
in the head, dying almost instantly.

PRaise FOR THE ARMY.
Inspector General Breckinridge in
His Annual Report commends
the Troops in Philippines.
OFFICERS AND MEN HIGHLY PRAISED.
Bases His Statements from Observa-
tions Made During His Tour of the
Islands—Difficulties Encountered
and Hardships Endured Only
Known to Those in the Service.
Washington, Nov. 18.—In his annual
report to the secretary of war, Gen.
J. C. Breckinridge, inspector general
of the army, discusses in detail each
branch, each department bureau and
command in the army. The general
heartily commends the course of the
United States officers and men in the
Philippines and declares that the
army is laboring patiently and faith-
fully to solve the difficult problems.
The charge that cruelty is generally
practiced on the Filipinos by the of-
ficers and men is vigorously refuted.
In the Philippines.
Gen. Breckinridge has the following
to say regarding his inspection in the
Philippines:
"During my tour in the Philippines
it was evident on all sides that the
army, as a whole, was laboring pa-
tiently and faithfully to solve the
many vexing problems continually
presented to it. The difficulties en-
countered and the hardships endured
never can be fully appreciated by any-
one who has not been on the ground
and observed the daily life of officers
and men, miles away from home in-
fluences and associations, living in
communities either openly or secretly
hostile, depending almost entirely
for their subsistence upon the com-
missary—where one is always afraid
to take even an ordinary drink of wa-
ter without ascertaining first whether
it has been cooked."
Duties Well Performed.
After scoring critics at home, Gen.
Breckinridge says: "There is reason
for gratification that our fellow
countrymen has confidence in their
army, and many know what war is.
That the army performed its duties
well and bore its hardships uncom-
plainingly is well known to all who
have kept in touch with it since the
opening of the Philippine insurrec-
tion. In fact, it has only done these
things which we expect of it and
which we continue to expect of Ameri-
can soldiers."
Treatment of Natives.
In discussing the American troops
and the Filipinos, Gen. Breckinridge
says:
"There has been a good deal of dis-
cussion in the public press and else-
where concerning the treatment of
the native Filipinos by the American
soldiers, and some rather serious
charges have been brought against
the army, which charges have not
been substantiated. The conditions of
war in the Philippine islands have
been, perhaps, unusual, and from rea-
sons arising from the conduct of the
Filipinos themselves, who, as the au-
thorities agree, are sometimes ex-
tremely cruel and treacherous. In
the conduct of the American army
toward them the exercise of unexam-
pled patience is claimed, and the hu-
manity of the troops engaged has no
parallel in the history of dealing with
Asiatics."
Generals Praised.
The general commands most highly
the work done by Gens. Merritt, Otis,
Bates, Wheaton, MacArthur, Hughes,
Funston, Young, Smith, Bell, Lawton,
Chaffee, Davis, Grant and Baldwin
and says: "These are not half the
names, nor are all of them as well
known to their fellow-countrymen as
they deserve. But these are among
those whom I met or the results of
whose work I witnessed during the
past year."
The officers of the inspection corps
in the Philippines substantially agree
that extreme and frequent cruelty has
not been habitually practiced, and
that all well-founded complaints of
excesses have led to trial and pun-
ishment of the offenders."
Big Meteor Falls.
Springfield, Ill., Nov. 17.—Early Sat-
urday night a huge meteor fell in the
barn lot of W. C. Murphy, who re-
sides half a mile east of Rochester,
a village six miles east of Spring-
field. The aerolite's brilliancy il-
luminated the country for a consid-
erable distance as it flashed to the
ground. Where it struck is a hole in
the ground two or three feet deep.
Fell 125 Feet.
Council, Bluffs, Ia., Nov. 14.—James
F. Adams, an electrician, fell 125
feet, and beyond some bruises was not
seriously injured. He was ascending
a 150-foot high tower when the cable
attached to the carriage in which he
was making the ascent broke.
Calls Boers Cowards.
Berlin, Nov. 18.—The Lokal An-
zeiger publishes extracts from Gen.
De Wet's book on the Boer war, in
which startling accusations are made
against some of the Boers of coward-
ice, lack of discipline, faithlessness
and disgraceful treachery.
Electrocuted.
Auburn, N. Y., Nov. 19.—John Truck
was put to death in the electric chair
in the state prison here for the murder
of Frank W. Miller at Virgil,
Cortland county, March 14, 1899.
The Precious Metals.
Washington, Nov. 13.—Director of
the Mint Roberts reports that the
world's production of gold in 1901
was \$263,347,000, and of silver \$104,
999,100.

The Nichols Case.

The Nichols case is still on trial in the circuit court and the prospects are that it will not be finished for a couple of weeks.

Stilson V. McLeod, one of the victims of the Grand Rapids water scandal, arrived from the Detroit House of Correction Monday morning, under the care of Sheriff Dykhuus to testify. Mr. McLeod was sentenced to Detroit last winter in the Federal Court by Judge Wanty, on a charge indirectly connected with the water deal trouble.

Arthur Stow took the stand Monday and told of the meeting at the Livingston where it is alleged the bribe money exchanged hands.

Wm. H. Pearson, of Detroit, a friend of S. V. McLeod, testified to meeting Senator Nichols in Saginaw by prearrangement last December, and stated that Nichols told him he was afraid McLeod was going to "cough up" all he knew in regard to the water scandal. Nichols told the witness, he says, that McLeod ought to be "stiffened;" that McLeod should be given \$600 or \$700. Nichols wanted Pearson to use his influence with McLeod.

Col. Gardener Praises Filipinos.

Col. Cornelius Gardner of the Thirtieth Infantry, United States army, who went from Michigan to the Philippines three years ago, was the guest of honor at a banquet given by the Holland society of Chicago at Kingsley's Monday night. After a successful campaign in the province of Tayabas, which ended with the pacification of its people, Colonel Gardner was made governor of that province and held the position until the expiration of his term of two years. After a brief review of the history of the Filipinos under Spanish rule and of the war against the insurgents, Colonel Gardner spoke of the present conditions and prospects of the people.

"There seems to be an impression among Americans," he said, "that the Filipinos are an altogether uncivilized people. That idea is far from the truth. There are many well educated persons among the Filipinos and even the poorer classes do not neglect to send their children to school."

"The commission sent to the islands by the United States government has done a great deal of good and enjoys the respect of all the Filipinos. Judge Taft has succeeded in winning the confidence and love of the natives, and is by them considered their staunchest friend. The Filipinos are good and loyal people and soon learn to love men who treat them in a spirit of friendship. When my term approached its end I received many letters from prominent Filipinos in Tayabas urging me to accept a second term. The relations between the inhabitants of the province and myself were thoroughly friendly and based upon mutual confidence and good will. In my province alone more than 500 children attended American schools and had learned the English language at the time I left. Six young men from Tayabas are now studying at the University of Michigan in Ann Arbor."

December Jurors For Allegan County.

The following petit jurors were drawn for the December term of circuit court to begin the first Monday of the month:

Oscar Priest of Allegan, William Fabun of Casco, George Ridgely of Cheshire, Wm. H. Silcox of Clyde, George A. Pullen of Dor, Charles H. Howell of Filmore, Charles Corwin of Ganges, James Slater of Gun Plains, Fred Barlow of Heath, Sylvanus Paul of Hopkins, Henry Van Lepik of Laketown, J. W. Dunkleburg of Lee, Adam Clemens of Leighton, Cornelius Bultman of Manlius, Wm. L. Montleth of Martin, Wm. Kemmer of Monterey, Elbridge F. Ellis of Otsego, Herman Cook of Overisel, Gorman Bond of Salem, Fred H. Herbert of Saugatuck, Eugene J. Dibble of Trowbridge, Geo. E. Kingsley of Valley, A. J. Kent, Jr., of Watson and Frank Chamberlain of Wayland.

In the last issue of the Christian Intelligence Rev. P. Moerdyke of Chicago has the following regarding the study of the Dutch language in Hope college: "What we desire to see established in Hope College is a lectureship, providing annually for a series of scholarly lectures on the history, language, literature, art, science and influence of the Netherlands, with Dr. Griffin as the first honored lecturer. It is not sufficient to teach a little Dutch there, but there should be awakened profound interest in that language and literature through such learned addresses. This would gratify all our Hollanders, who have a lasting and large claim upon our institutions in just this line of service. Indeed, if we could have an endowed professorship of this character as one distinguishing characteristic of the Reformed college of the West, we should be honoring a worthy ancestry, preserving its noblest traditions and teachings, and also effectually stimu-

lating the young men intending to serve the Holland people to master a language so deserving of skillful and cultured use in the pulpit. Let the Holland language have this setting and dignity in the course and it will not be eclipsed or slighted by our students."

Excellent Entertainment at Third Reformed Church.

It would take an auditorium twice the size of the Third Reformed church to accommodate all who wished to attend the entertainment given last Friday night by the young people of the congregation of that church. Long before 7:30 o'clock, the hour set for the first number, the church was crowded to the doors and late comers had to retrace their steps homeward without getting a glimpse of the interior of the building. The crowd was attracted by the favorable reports that preceded the entertainment and now that realization has given way to anticipation it is safe to say that double the number that hoped to attend would try and get in the church if the festival was repeated. Never in this city has a more decided success been scored by local people and great is the credit due the Third Reformed church, for the program was carried out by members of the congregation unaided by outside talent.

John Vandersluis, the director of the choir, had charge of the affair and to his efforts and the hearty cooperation of the young people the success of the event was due. The work of the chorus of fifty voices was grand. In the "Harvest Song" with solo by James Dykema it made a decided hit and despite the fact that the sacredness of the edifice forbade a demonstration it was greeted by hearty applause. The manifestations of approval increased as the chorus rendered the other numbers allotted and when the chorus of 24 male voices gave "The Soldiers Chorus" by Giff, the stirring melody roused the audience to a pitch that nothing would satisfy but an encore. The ladies chorus in "Home Sweet Home" and in "Daddy," with obligato solo by Miss Amy Dosker, was not a whit behind the main chorus and the male chorus and met with great favor.

The other numbers were up to the mark set by the chorus. Messrs. C. Klassen and H. Cook gave a violin and mandolin duet "Prayer and Pasion;" Mrs. Geo. E. Kollen read "The Altos' Inspiration" in a manner that testified strongly to her elocutionary ability; Miss Anna Sprietema, with violin obligato by P. Notter, sang Repentance charmingly; Miss Margaret DeVries and H. Kleyn sang "Jesus, the Very Thought of Thee," and P. Notter, B. DuMez and H. Cook were fine in a mandolin trio rendition of "Il Travatore." William VanderHart gave an example of bright comedy in a pretended flute solo and an example of the sublime in a recitation entitled "The Last Hymn." He was exceptionally good. Rev. G. H. Dublin, the pastor, opened the program with prayer and it was closed by the doxology. Miss Hannah TeRoller and Miss Minnie Sprietema presided at organ and piano. Following are the members of the chorus:

Sopranos—The Misses Anna Beekman, Dena Cotts, Margaret DeVries, Sena DeVries, Matilda DeFeyer, Minnie De Feyter, Amy Dosker, Bertha Dalman, Kate Prakken, Anna Sprietema, Mamie Biedsma, Mrs. J. Vandersluis, Mary Van Dyke, Kate M. Zwemer.

Altos—The Misses Margaret Beekman, Mary Elenbaas, Mary Karsen, Mama Nauta, Jennie Prakken, Gertrude Sprietema, Mrs. Fred Steketee, Miss Lizzie Winter, Marie Zwemer.

Tenors—Messrs. Lucas Boeve, Herman Cook, Edward Cotts, Peter Dalman, Henry DeWeerd, Henry Kleyn, Bert Naberhuls, G. J. A. Pessink, John K. Van Lente.

Bassos—Messrs. C. B. Dalman, B. F. Dalman, Benj. DuMez, James Dykema, Fred Kerkhoff, Henry Naberhuls, Peter Notter, John Prakken, W. E. Vander Hart, W. E. VanDyke, C. Van Duren, James Wayer, Thos. Wellmers.

Thanksgiving Distribution.

The committee for Thanksgiving distribution will again receive articles of food, clothing, furniture or money at the store of John F. Zalsman, corner River and Ninth street. These prosperous times ought to provide a bountiful gift for the less fortunate and citizens are urged to be as liberal as in former years. It is requested that groceries, meats, clothing shoes, underwear, hats, caps, overcoats and furniture be brought on Tuesday afternoon, so that the committee may have ample time for distribution. Moneys may be paid to Mrs. Gilmore, H. Geerlings or H. Van der Ploeg.

The country surrounding Holland is now well covered by rural free delivery routes. The five new carriers went on duty Saturday making seven in all. The length of the seven routes is 169 miles and a population of 4,429 is reached. As a rule the farmers are quick to avail themselves of the advantages offered by the system and excepting in a few instances they place delivery boxes near their homes. Following are the carriers: Route No. 1, G. J. A. Pessink; No. 2, Maurice Luidens; No. 3, Benjimen Wolters; No. 4, Anthony Rosbach; No. 5, Albert P. Kleis; No. 6, Albert DeVries; No. 7, Dick Oosting. The postoffices at May, Ventura and New Holland have been discontinued and the records boxes and stock have been turned over to Postmaster Van Schelven who will account for the same to the department.

It takes diplomacy and daring to outwit the wedding guests of this day and age. These guests as a rule try to make life a burden to the newly wedded as they start on the first installment of their joint journey through life—the wedding trip. Rice in show-ers, cowbells in every key, placards with every sentiment and old shoes of all sizes are some of the weapons used. But the guests do not always get a chance to use them. They did not last Wednesday night at the Allen-Huntley wedding. Ross Cooper and Miss Addie Huntley foiled their plans by a brilliant display of generalship. It was given out that Mr. and Mrs. Huntley would leave for Grand Rapids on the 9:50 Pere Marquette train. To cut off all avenues of escape the guests divided into two squads. One took the 9:40 interurban and the other the Pere Marquette. But lo and behold on neither road did they find the missing bride couple. They went to Zeeland in battalion formation and joined forces at the station there. But all their efforts availed not. Mr. Cooper and Miss Huntley took their charges in a hack to Zeeland—but not to the sub station. They went to the crossing beyond and just as one of the advance guard of wondering guests sighted them they escorted the happy couple to the car and when they were safely away turned to tell the wondering friends how it happened and incidentally to laugh at their discomfiture.

Miss Frances DeKoeyer died yesterday morning at her home, 206 West Tenth street, at the age of 13 years of consumption. The funeral will be held Saturday afternoon at 1 o'clock from the home of her parents and at 1:30 from the First Reformed church, Rev. Van der Werf officiating. Miss DeKoeyer attended room 7 in the High school building and it is expected that her school mates from that room will arrange to attend the funeral.

The local lodge I. O. O. F. is growing very rapidly. At its next meeting next Thursday night five candidates will be initiated and every Odd Fellow whether he be a member of the local lodge or not, is earnestly requested to attend. A banquet will be served after the initiation ceremonies. At the meeting last night the first nominations of officers for the ensuing year were made. The second nominations will be made next Thursday night and the election will be held the first regular meeting in December.

The Woman's Missionary Society of Hope church will give a Missionary Social at the home of Mrs. M. E. King on West Eleventh St., Monday evening, Nov. 24. At eight o'clock the Rev. Mr. Conkling of New York will give a talk on "Why is it worth a man's while to help the heathen?" After which there will be an offering for the work, light refreshments and a general good time. A most urgent invitation is extended to all the men and women of the church and congregation—especially the men.

The Heinz Pickle Co has a way that is all its own—and its a very good way. Its managers of branch factories are treated with the greatest consideration. As a rule a residence is provided for them. Since coming here T. W. Oakley, the local manager, has had to pay rent but all that will be stopped in a couple of months for the company has arranged to build a house for his occupancy and already workmen under Contractor Sterenberg are at work. At Hicksville, N. Y., where Mr. Oakley was manager before he came here the company provided a house and he is pleased that the same plan will be followed here. The house will be built in the little grove on the company property on the north side of the road to Macatawa. It will be modern in every respect and will be fitted up with all conveniences. Mrs. Oakley will go to New York for a long visit next month and on her return the new house will be occupied.

Association Surprises James L. Conkey.

Continuous surprise parties are all the go in the Holland Poultry and Pet Stock association. Every week or two some unsuspecting member is called from peaceful household joys to an awakening that means he must entertain his fellow members. That the entertainment is furnished in lavish style is proved by the great success of this form of pastime. No one, unless he be a member of the select circle, can tell who the victim of the surprise will be until the event becomes a certainty.

Last Friday night J. L. Conkey, the president, was the man. He and his wife were inveigled to Holland on a wild goose chase and when they returned they found their peaceful home in possession of a warlike band that threatened destruction. They held out overtures of peace to the invaders in the form of hospitable treatment and a surrender of all their rights to the homestead. The invaders through their spokesman L. S. Sprietema at divers time during the evening took occasion to express to host and hostess their great appreciation of the treatment afforded and all went "merry as a marriage bell" until the minority report of the committee on refreshments was brought in in the form of eggshell sandwiches, feather toast and leather sandwiches. The efforts of the guests to dispose of the minority report were ludicrous in the extreme and hopeless. They were mollified however by the majority report which provided that all of the delicacies of the season be served. And served they were in royal style.

Interspersed with the evenings supply of poultry and pet stock discourse was a program of musical selections in which Mr. and Mrs. H. E. Bradshaw, and the association quartet consisting of Messrs. Jacob Westveld, John Westveld, John Stogarda and L. Visers took important parts.

A pleasant surprise was given to Miss Madge Hardy, daughter of G. E. Hardy, master mechanic of the G. R. H. & L. M. R'y., last Tuesday evening by twenty-five young ladies and gentlemen at her home, 145 West Eleventh street, in honor of her birthday. Music and games was the program of the evening, after which a bountiful supper was served all doing justice. Supper being over they all returned to the parlor and had their pictures taken by Mr. Hardy. At a late hour they departed feeling that the evening had been most pleasantly spent and wishing Miss Hardy many happy returns. Miss Hardy received many beautiful and useful presents. Charles Floyd, master of ceremonies, won first prize in the olive eating contest and was awarded a round trip ticket to Grand Rapids. Among those present were the Misses Oosting, Beukema, Sessions, De Kruij, Baart, Jones, Lokker, Mc. Carthy and Lugers; Messrs. Harris, Brown, Rynders, Ticbeck, Phernambucq, Floyd, Kramer, Gordon and Wilms; Mr. and Mrs. Stewart, Mr. and Mrs. Wm. Shorke.

Special sale of table linens for Thanksgiving season at John Vander Sluis. Go and see what 60 cents a yard will buy. Mr. Vander Sluis will also have on sale 500 of those celebrated artists pictures for 10 cents each.

Huntley-Allen.

A very pretty wedding took place last Wednesday night at the home of Mr. and Mrs. E. R. Allen, 85 West Ninth street, when their daughter, Miss Mable L. Allen, was united in marriage to Alfred Huntley, Jr., in the presence of a large number of friends and relatives.

To the strains of the wedding march played by Breyman's orchestra the bridal party, preceded by Miss Hazel Allen, sister of the bride, entered the parlor and under a canopy of flowers the words were spoken that made the happy couple one. The ceremony was performed by Rev. Dr. J. W. Beardslee, who used the ring service, Miss Hazel Allen acting as ring bearer. The bride was charmingly gowned in white organdie trimmed with valencienne lace and pearl beads and carried bridal roses. She was attended by Miss Addie Huntley and Ted Hess of New Buffalo was best man. Mrs. P. F. Boone was mistress of ceremonies and N. J. Whelan was master of ceremonies.

After the ceremony elaborate refreshments were served and an informal reception was held. Mr. and Mrs. Huntley went to Grand Rapids on the 9:30 interurban car and from thence to Detroit and Ohio on a short wedding trip. They will be at home to their friends at 271 Fourth avenue Grand Rapids after January 1.

Among the guests from out of town who attended the wedding were Mrs. C. A. Hill and daughter Marjion of Muskegon; Miss Jeannette Van der Veen of Grand Rapids; Mr. and Mrs. John Pieters of Fennville; Mrs. B. E. Sanogle, of Orleans; Mr. and Mrs. Arthur E. Huntley, of Muskegon; Mr. and Mrs. J. F. Lindley, Misses Bessie Lindley, Bell Lindley, Mary Ormond, Mamie Hartnett, Mr. and Mrs. McLachlan, Mrs. M. Ormond, of Grand Rapids.

In the presence of about one hundred guests Miss Grace Huijenga and Edward Streur were united in marriage last Wednesday night at their future home, 46 East Sixth street. The wedding was a very pretty affair, the ceremony being performed by Rev. H. Van Hoogen. The bride was becomingly attired in a grey gown. She was attended by Miss Gertrude Leestma, and John Nyland was best man. Many handsome presents were received. Mr. and Mrs. Streur are well known in this city and enjoy the esteem of a large circle of friends. Mr. Streur has worked at the Crystal Creamery for eleven years.

Mr. and Mrs. R. Bouwens of Zealand were pleasantly surprised Monday night by relatives from this city. Tuesday was the fifty-sixth birthday anniversary of Hon. I. Marsilje and in honor of the occasion the members of the consistory of the Fourteenth Street Christian Reformed church, their wives and a few friends called on Mr. and Mrs. Marsilje and spent a delightful social evening. It was a surprise on Mr. Marsilje but he proved equal to the occasion and saw that all were royally entertained. In behalf of the guests Rev. D. R. Druker extended congratulations, to which Mr. Marsilje responded.

In honor of her tenth birthday anniversary Miss Gertrude Witvliet entertained a company of her little friends Tuesday afternoon at the home of her parents, Mr. and Mrs. M. Witvliet. A happy time was enjoyed with games and music, and dainty refreshments were served. Among those present were Marie and Ethel Dykstra, Marie Kanters, Julia Den Herder, Margurite Meyer, Sadie Kinch, Bertha Brink, Jennie Mantling, Bertha Smith and Mabel Streur.

To Revise the Charter.

The meeting of the common council held last Tuesday was very important. As a result of the deliberations a new move will be made in the street paving matter. Finding upon investigation that if the bonds of the city were issued under the methods provided by the present ordinance that much difficulty would be encountered in disposing of them, it was finally decided that the charter be amended at the next session of the legislature in a manner to obviate the difficulty, and a committee consisting of Aldermen Van Putten, Kole and Kramer, City Clerk Van Eyck and City Attorney Kollen was appointed to look after the revision and report their findings to the council. The official report of the council proceedings will be found in another column of this issue.

WHAT THE NEW YORK WORLD OF SUNDAY, SEPT. 7, SAYS ABOUT "MALTA-PURA."

MALTA-PURA.

The recent output of the Battle Creek Health Beverage company is expected to attract general attention throughout this country. The medical department has prepared from the formula furnished by the celebrated German chemist, Prof. Kurtz, a tonic with malt as the basic stimulant. It is in liquid form, is sold for medicinal as well as family purposes and besides being exceedingly agreeable to the taste, affords an invigorating tone to the system. As a medicinal tonic equally as a pleasant drink it is sure to become very popular. It has been found to be successful in all pulmonary troubles, as an aid to digestion and in cases of consumption, grippe and pneumonia. A great point in favor of this tonic is that it possesses none of the deleterious effects usually found in stimulants. Malta-Pura has only been on the market a few months, but it has entered at once into wide popularity, making an enlarging of the plant necessary. As it is absolutely unique as a tonic, it is sure to occupy a place all its own and has already found great favor upon the social buffet as well as the sick room. The city of health foods is a fitting place for the manufacture of this unusual health drink. The company is now prepared to fill orders throughout the entire country. It is unusual for any tonic to receive such unanimous indorsement from medical as well as social circles as has Malta-Pura. For sale by druggists. 37-tf.

STRIKE HEARING BEGUN.

John Mitchell, the Miners' President, is the first witness before the Commission.

THE CONTEST IS OVER THE UNION.

The Witness Denied That the Organization Had Ever Violated a Contract - Conditions in the Coal Fields Outlined - Makes a Demand for Trade Agreement.

Scranton, Pa., Nov. 15.—The anthracite strike commission yesterday began the hearing of the miners' side of the controversy. For five hours John Mitchell, president of the United Mine Workers, was on the stand, under oath, giving testimony and responding to a trying cross-examination.

The operators attacked the United Mine Workers as an organization, ignoring for the present all other points and passing over all Mitchell's claims for better wages and shorter hours.

Blames Operators.

They tried to force Mitchell to admit that the union has violated contracts, drew from him the reasons of the strike, tried to get him to admit that he is possessed of arbitrary power to declare strikes. He denied positively that the United Mine Workers have ever violated a contract, laid the blame of the strike on the operators, who, he said, have increased the size of cars, added to the amount of topping, and otherwise forced the miner to produce a greater amount of coal at the same price, and he declared that he had no power to call strikes.

During the hearing the statement was brought out for the first time that the union had disbursed \$1,500,000 among the union and nonunion men who were on strike.

Reads a Statement.

President Mitchell opened by reading a statement of the miners' side of the case. He outlined the conditions in the coal fields, the number of men employed, their classification, and the percentage belonging to the union. He told of the dangers, saying every day the anthracite mines are worked 2 to 10 persons are killed and three times as many injured.

Under Cross Fire.

Scranton, Pa., Nov. 17.—President Mitchell, of the United Mine Workers, for four hours and a half Saturday was subjected to a severe cross-examination by the attorneys for the operators during the proceedings before the anthracite strike commission. The question of wages was considered in detail, and Mr. Mitchell reiterated the clauses in the miners' demands that a 20 per cent. increase is necessary for the mine workers. Child labor also came in for a great deal of discussion.

Still on the Stand.

Scranton, Pa., Nov. 18.—John Mitchell spent his third day on the witness stand, undergoing a severe cross-examination by Wayne MacVeagh, representing the Pennsylvania Coal company, which was not concluded when the commission adjourned. The questions asked were intended to support the operators' contention that the miners' union is irresponsible and cannot control its members, and therefore is not competent as a party to a trade agreement. They were directed principally to the boycott and disorder during the strike.

Mitchell's Fourth Day.

Scranton, Pa., Nov. 19.—Mr. Mitchell was on the stand for the fourth day, and the efforts of the attorneys for the operators were centered on an attempt to show that the mine-workers' organization is not entitled to recognition, because it is not a responsible body. Mr. MacVeagh placed great stress upon the alleged acts of violence, intimidation, and the use of the boycott. Mr. Mitchell denied absolutely the reports that a reign of terror existed in the anthracite regions during the strike.

LIFE-SAVING SERVICE.

Work of the Government in This Important Department During the Past Year.

Washington, Nov. 19.—The general superintendent of the life-saving service has rendered his report for the year 1902. It continues to show most gratifying results of the work of this humane organization.

The number of disasters to vessels within the scope of the operations of the service during the last year was greater than ever before with the exception of the years 1898 and 1901, yet the loss of life was very small. The number of lives lost from documented vessels—those of five tons burden or over—was only 19, while six were lost from smaller craft—sailboats, rowboats, etc.—making a total of 25—a number far below the average.

The amount of property imperiled was greatly in excess of that of any previous year in the history of the service, owing to the unusual number of large vessels involved. No less than 54 vessels of over 1,000 tons burden—of which number 33 were steamers—suffered disaster. The loss of property, however, was comparatively light.

The number of disasters to documented vessels was 385. On board these vessels were 3,424 persons, of whom 19 were lost. The estimated value of the vessels was \$9,253,630 and that of their cargoes \$5,139,380, making the total value of property involved \$14,393,010. Of this amount \$12,125,220 was saved and \$2,267,790 lost. The number of vessels totally lost was 51. In addition to the foregoing, there were 361 casualties to undocumented craft—sailboats, rowboats, etc.—carrying 796 persons, six of whom perished. The value of property involved in these instances is estimated at \$174,120, of which \$167,575 were saved, and \$6,545 lost.

CONDEMNNS PRESIDENT ELIOT.

Federation of Labor Adopts a Resolution Criticizing Head of Harvard University.

New Orleans, Nov. 19.—The Federation of Labor at its session Wednesday morning adopted a resolution condemning the recent reported utterances of President Eliot, of Harvard college, in favor of "scab" workmen.

The first paragraph of the resolution as originally introduced commenced: "Whereas, the head of the foremost American university, President Charles W. Eliot, of Harvard, etc." Secretary Agard, of the resolutions committee, called attention of the convention to the word "foremost," saying that the committee had changed the word to "prominent," as the members of the resolutions committee did not believe that an institution which would retain at its head a man capable of such expressions as those represented of President Eliot could by any possibility be the "foremost" university of the country.

Fighting on Afghan Frontier.

Simla, India, Nov. 19.—Col. Tonney, commanding the south column of the British expedition engaged in putting down the uprising of the Waziri tribesmen on the Afghan frontier, found a strong tower at Gumatti, held by six outlaws, who refused to surrender. The shells from the British guns made little impression on the fort till evening when the tower was stormed and all its defenders were killed. The British losses were comparatively heavy.

Commission Selected.

Copenhagen, Nov. 19.—The Danish government has selected all the members of the commission which is to go to the Danish West Indies in December to investigate and report on the necessary steps to be taken for the improvement of the economic conditions of the islands. M. Nordlien, chief of the department of railroads and telegraphs in the ministry of public works, is head of the commission.

Fatal Riots at Rio Janeiro.

Rio Janeiro, Nov. 19.—Riotous demonstrations Tuesday marked the departure from this city of the retiring president, Dr. Campos Salles. EXTENDS WARM WELCOME

Memphis Enthusiastically Greets President Roosevelt on His Arrival in City.

GUNS ON RIVER FRONT BOOM SALUTE.

Magnificent Parade One of the Features of the Celebration in Honor of the City's Guest—Hunt Ends Without President Getting a Shot at a Bear.

Memphis, Tenn., Nov. 19.—President Roosevelt and party arrived in the city Wednesday morning promptly at nine o'clock from Smedes, Miss., on a special train over the Yazoo & Mississippi Valley railroad. The journey from Smedes was devoid of special incident. The president upon his arrival here was given an enthusiastic demonstration when he alighted from his car at the Union depot. He was met by a large delegation of representative citizens with bands and escorts of police officers and detectives in plain clothes.

Among those in the president's party were Stuyvesant Fish, president of the Illinois Central railroad; General Solicitor J. M. Dickinson, of the same road; Dr. Lung, the president's private physician; several newspaper correspondents and secret service men.

The Parade.

The parade was at once formed and as the long line swung into motion for the march through the city, cannon stationed on the river front near the custom house boomed a salute of 21 guns.

The parade was headed by Chief of Police Mason and other police officers, bands and a large escort of citizens on horseback, after which came the carriage containing the president, Gen. Luke E. Wright, Secretary Cortelyou and Chairman W. Crawford, of the general committee.

The principal buildings along the route of the parade were gay with colors. Along Main street the sidewalks presented solid lines of people and the president was kept busy bowing his acknowledgment of greetings.

Reception at Gayoso Hotel.

The parade ended at the Hotel Gayoso, where the party alighted and an informal reception was held. Several hundred citizens shook hands with the president. Gen. Wright, who arrived in his native city Tuesday night, was also cordially greeted. After the reception President Roosevelt retired to his room for a short rest.

A Busy Day.

The programme arranged for the day was very elaborate. At the Gayoso hotel a banquet was tendered the president and Gen. Wright by the ladies of the Memphis. In the afternoon there were two receptions to Gen. Wright, one by the white citizens of Memphis at the Auditorium, and the other by the colored people at their own hall on Beale street. Both of these receptions were attended by the president.

The Hunt Is at an End.

Smedes, Miss., Nov. 19.—President Roosevelt's bear hunt in Mississippi is ended, and he has not had even a shot at a bear. The last day of the chase was simply a repetition of the three preceding days, so far as his luck was concerned. Try as the hunters would they could not get a bear within range of the president's rifle. Although the president has failed to kill bear on this expedition he has enjoyed his outing and speaks in high praise of the hospitality that has been accorded him. He philosophically attributed his ill fortune to the traditional hunter's luck and says the next time he goes after bear he will arrange to stay long enough for the luck to change.

May Prevent Game.

Washington, Nov. 19.—Advice received at the navy department Wednesday state that Midshipman Aiken, of the naval academy, who was injured in a football game some days ago, is very low and it is feared that the football game at Philadelphia on the 29th instant, between the naval and military academies, may be called off.

Both were wounded and it is believed Flemroy will die. Rev. Tyler is in jail. The two negroes fought over a domestic difficulty.

Found Guilty.

St. Paul, Minn., Nov. 19.—A Rhinelander (Wis.) special to the Dispatch says: The jury in the case of John Goulette, charged with murder, brought in a verdict of guilty, after being out six hours. The offense was the killing of Elmer Bonnie, a 19-year-old lad, by Goulette in his saloon last December.

Young Man a Suicide.

St. Louis, Nov. 19.—William J. Lomaney, aged 29, exchange teller at the Third national bank, committed suicide Wednesday in the courtroom of Justice Cullinane. No motive can be assigned for the act.

Masked Robbers Loot Post Office. Edinboro, Pa., Nov. 19.—Five masked robbers dynamited the safe in the post office early in the day and carried off \$300 in postage stamps and \$20 in cash.

Bad Taste in the Mouth

When you get up in the morning with a coated tongue and a bad taste in the mouth, you may or may not be seriously ill, but if there is any disease going, your system is just right to catch it.

We know what you think—first you are half persuaded to try Vinol, and then you say to yourself: "That's the same story all the medicines tell; I've heard it before."

But Vinol is not like other medicines. If it were, we shouldn't be talking about it in any special way.

If you will regulate your bowels with Vinol and take Vinol to improve your digestion and assimilation of food, these troubles, with the headache, "liver complaint," neuralgia, rheumatic pains, and nerve troubles will disappear as by magic.

We pay back the money if it doesn't help you.

Talk of the City

IT'S INTERESTING TO OUR READERS BECAUSE IT REFERS TO HOLLAND PEOPLE.

It is astonishing how good news will spread. From every ward and street we hear of our people talking about the workings of the "Little Conqueror." Merit and honorable methods receive their just reward. So many cases are cropping up that it is almost impossible to investigate them all, but we have taken a few in hand, and have given them publicity for the benefit of our readers. Our representative obtained the following statement of facts in a personal interview. They are true in every particular and no stronger evidence can be obtained than home indorsement.

Mr. F. Brieve, of 67 West First St., employed at Moore's soap factory, says: "I suffered from kidney trouble for ten or twelve years and until I got Doan's Kidney Pills at J. O. Doesburg's drug store I never found a remedy which gave me any effectual relief. I had a constant aching pain in my loins and a soreness over the kidneys. The kidney secretions became irregular and I suffered from headaches and attacks of dizziness. I took Doan's Kidney Pills but a few days when I felt they were doing me good and I continued their use until the trouble left me entirely."

HUSKING FROM THE ROW.

Common Practice in the Great Corn States of the West.

By far the most serious task in raising corn is the matter of husking it in the field. Up to date no practical machine adapted to this purpose has appeared. Many have been tried, but they usually fall short in some important particular. None of them has become popular, and a fortune awaits the man who perfects a thoroughly practical corn husker which will be as successful relatively as the modern husker is for corn fodder, says Orange Judd Farmer.

When corn is to be husked direct from the standing stalk, it should be allowed to mature quite thoroughly, particularly if it is of a variety with large ears and large cobs containing a high percentage of moisture. This must be determined by examination. Some seasons husking begins the latter part of September, while in others it is not safe to begin husking until the middle or end of October. The time will also depend largely upon the variety. Early maturing kinds have small ears and small cobs, and they can be husked much earlier than late maturing and large ear varieties. Corn when first placed in the crib contains 13 to 35 or 40 per cent of moisture.

A common practice in the great corn states is to start through the field marking a "down" row. Husk two rows to the left of the wagon and the one row that is under it. Go around a good sized "land" in this manner. The next time through the field and every succeeding time thereafter have the team straddle the last husked row next the corn that has not been husked. This will prevent the necessity of picking up a down row each time and will enable the husker to do his work.

The ordinary wagon box will hold from twenty-five to thirty bushels. When the corn is exceptionally good, a skillful husker will be able to more than fill one wagon box in half a day. The capacity of a box may be increased by putting on additional side boards. On the right side of the wagon box it is desirable to place one or two extra boards to act as bump boards. The husker will not need to use so much care in throwing in his corn, which will enable him to do more work. A good husker so gauges the distance from the row to the wagon box that it is not necessary for him to look where he throws his ear.

Crates For Apples or Potatoes.

Some years ago I made quite a number of bushel boxes like the one here-with illustrated. I made them more as an aid to sorting apples in midwinter than for any other purpose. After I had used them for a year or two I liked them so well that I have made a number, and I have found them to be very useful in handling either apples or potatoes, says a correspondent in an exchange. Apples may be sorted, put in these bushel crates and stacked up in tiers as high as one can reach and in this manner save room in the cellar. If the apples decay, sorting is very easily done, and they may be removed and placed in another part of the cellar if necessary. These crates will not withstand as rough handling as a galvanized half bushel or basket, but they may be used in an emergency as a substitute for them in careful hands. To make these boxes cut your end pieces from twelve inch boards twelve inches long and the bottom pieces and side strips sixteen and three quarter inches long. Nail the end strips to the bottom and afterward put on the side strips about one and a half inches apart. When the box is made, the inside dimensions should be 12 by 12 by 15 inches. This will make a good bushel.

BUSHEL BOX.

The Hog on Western Farms.
Economical hog production is based largely on the selection of good breeding stock. This must be combined with intelligent feeding. The most common error is that of neglecting little pigs at time of weaning. Pigs stunted at this time will never make profitable pork. One should handle his hogs so as to have them ready for market at from six to eight months, weighing at this time from 200 to 225 pounds. In spite of the fact that corn is frequently denounced as hog food, it cannot be denied that it is the best and cheapest food that is available on western farms. Green feeds, such as rape, clover and alfalfa are not sufficiently used as food for growing hogs. These foods not only supply nutrients that are highly important, but they serve to give variety to the ration, a factor that is very important and one that is frequently overlooked. "Squealing hogs are not profitable hogs."—Iowa Homestead.

One Thing and Another.

Every important potato growing state except New York showed a condition considerably higher than the ten year average according to the September crop report.

The corn crop is very late throughout the entire northern portion of the corn belt.

Tests of bran and alfalfa in Wyoming in feeding milk cows show that, though bran produced most milk, alfalfa was by far the most economical ration.

Retarded growth and much immature corn are reported from Michigan.

Forest fires have caused tremendous loss of property, live stock and timber on the Cascade and Coast ranges in the northwest.

The young plants of berseem, the great forage and sowing crop of the Nile valley, closely resembles our common alfalfa.

General Items.

One central Michigan newspaper office has been equipped with a phonograph which plays fast cakewalks. The editor has found that printers "tick" type about 25 per cent faster when keeping time to catchy music than they did before.

Lumber companies and loggers in the Upper Peninsula are experiencing a great deal of trouble getting help to carry on their operations. It is next to impossible to get labor, and unless conditions change many of the concerns will lose on this season's cut. Lumber jacks are being offered \$45 per month and all expenses. This is the largest pay since the early days of the industry but still few men can be obtained. The operators are in need of several hundred men more.

The diocesan convention of the Michigan Protestant Episcopal denomination at Detroit, has adopted a rule to retire clergymen after 25 years' service or at the age of 65 on a pension of \$500 per year.

Two hearts may beat as one, but two mouths don't eat as one. Lexington young people contemplating matrimony should cut this out and paste it in their hats.—Lexington News.

There have been upwards of 70,000 bushels of apples marketed at Manchester this fall and thousands of bushels are still left in the orchards of the vicinity.

A hunter run across a skeleton in the woods in the Big Bay district near Marquette and a rope fastened to a tree was still supporting his neck and head. It is believed that the bones are those of Lighthouse Keeper George Pryor, who disappeared from Big Bay station, a year and a half ago.

The Women's league of the Flint Congregational church held an experience social Saturday night at which various members of the league told how they had earned \$1 to be used in the work of the society. A certain member who had earned 99 cents of her \$1 by her own efforts and stopped there wrote to J. Pierpont Morgan for the other cent necessary, and in due time there came a courteous note from the multi-millionaire enclosing the contribution asked for, and containing the assurance that if the Women's league of Flint ever needed to be helped out of a tight place again he might be counted on to come to the rescue.

An item going the rounds of the western newspapers is to the following effect: A Michigan woman who has had a husband in the state penitentiary for about five years is evidently getting lonely. She wrote to the governor as follows: "Pleaze your majesty let him cum home, if for no other reason than to see his three children which has been born since he left."

For uniqueness this want ad. in the Portland Review takes the cake: "Lost, in loaf of bread, a gold ring, which the finder will kindly leave at the city bakery." The baker forgot to take off his ring before going to work, and it slipped off his finger into the dough. The disappearance was not discovered until the whole lot of bread had been sent out.

The farmer who owns any turkeys now is sitting up nights with a shotgun to keep them from mysteriously disappearing. It has been a bad season for turkeys and the birds are worth almost their weight in silver.

Leslie's new pickle factory made a bad start its first year. It has a capacity of 55,000 bushels, but the season was so unfavorable that the acreage contracted yielded but 10,000 bushels.

Base Ball Meeting. Dr. Knoohuizen, the New President.

Holland will be represented by another fast base ball team next season and if an early start counts for anything it will be the best in the state, for the initial steps have already been taken. A number of the fans met at the office of the Holland City News last Monday night and after listening to reports from Con DePree and Ben Van Raalte, Jr., regarding last year's base ball history it was unanimously decided to get in the race next year.

Messrs. DePree and Van Raalte, who by their earnest efforts made success possible last year, will not be at the head of affairs. The fans tried to prevail upon them to undertake the management of the team but on account of business reasons they declined to do so stating that they could not give it the time it deserved and advising that the work be distributed among three men, these three men to have control of the business end and to have the power to appoint a manager to look after the team. Messrs. DePree and Van Raalte said they would co-operate with the executive committee of three and would always be a helping hand. On motion of Mr. DePree, Dr. A. Knoohuizen, and Messrs. I. Goldman and John P. O'Connell were appointed as members of this committee and Dr. Knoohuizen was elected president and I. Goldman secretary.

It was the opinion of those present that a fund of not less than one thousand dollars should be raised in order that the success of the undertaking be assured and a committee consisting of Con DePree, Ben Van Raalte, Jr. and John B. Mulder was appointed to canvass the city for funds. Upon the success of this committee to a large extent depends the success of the club and every fan will be asked to prove his loyalty to the sport by a contribution of cold cash.

Foot Ball Thanksgiving Day.

There will be one of the old time foot ball games in this city on the afternoon of Thanksgiving day at 3 o'clock. Capt. Grand Haven has a good eleven and if possible it will be secured. Otherwise it will be Muskegon or Grand Rapids. Tickets will be placed on sale the first of next week. Admission 25 cents.

Not that the \$10 and \$12 suits aren't good—they're better than most suits at the price—but it pays to get as good a suit as you can afford.

A man put on one of our \$15 suits the other day and the first friend he met asked, "Where did you get it made?"

You really cannot tell our ready-made clothing from custom-made.

Attention to details in Suit-making does the business. We're ready for you any day.

Speaking of Overcoats—Here's a Prize

Come in and see it—here's a picture of one of our best sellers—doesn't show the cloth and the trimmings—doesn't show anything, really, except the style. Isn't it swaggy? It is cut long just as the picture shows, and is made with peaked lapels, vertical pockets; silk velvet collar; lined with serviceable Italian cloth; cut with no seam in back, which gives the coat that loose, swaggy effect from the shoulder down; full around bottom of skirt. We have also a complete line of blue and black Kersey and Oxfords 40 and 42 inches long. But this extra long swell coat is the thing for the young fellows who want to be smartly dressed—there it is on the right. Come in and look at our other styles; we like to show them.
